Energy efficiency isn't just about being "green"...it's about money saving solutions that keep your business in the black.

Who Is Prism Energy Services?

Prism Energy Services specializes in the evaluation, design, and installation of energy efficiency measures and renewable energy options for the commercial, industrial, and retail sectors.

Join Prism in the effort to BE SEEN AS GREEN!

Prism provides clients with innovative energy solutions, supporting a quality business environment for customers, patrons, and employees, while lowering monthly energy costs by up to 30%.

This objective is reached by working closely with clients to evaluate individual needs, design state of the art efficiency measures, and provide expert installation, yielding both quality, performance and results.

Such a customized approach guarantees that each client receives a highly personalized, superior standard of service, both now and in the future.

Our Commitment

Prism is committed to providing solutions to our clients that are environmentally conscious and economically sound. Our goal is to build strong relationships with our clients in order to understand their needs and challenges. We are committed to working with them on solving these challenges and achieving energy cost reduction.

Imagine The Possibilities

Imagine the financial impact of saving hundreds to thousands of dollars per year on energy costs. Imagine promoting your company as an environmentally conscious, "green" organization.

Prism's core competency is developing and implementing energy efficiency measures and "green" solutions, so it doesn't have to be yours! We will work with you on a long term and ongoing basis to make sure you are meeting your financial, energy and environmental goals and objectives.
